MY GARDENS LOCATED AT

7409 PARKWOOD DRIVE

7112 ARSENAL STREET

YOU ARE CORDIALLY INVITED to visit our Gardens where over 600 varieties of named Iris are growing. Our peak bloom is usually during the second week of May.

We will be happy to assist you in making your selection, or to answer any questions. Please feel free to write us.

Our Iris are replanted each year—assuring you of healthy, husky rhizomes from one year plants.

We wish to take this opportunity to thank you for your orders which have helped our "Garden to Grow!" We hope your garden will display great beauty this season, and that each new variety will meet your expectations—

1961 INTRODUCTION

PAL O MINE—(Becherer '61). Early Midseason. 34". (Palomino X Falstaff). Here is a beautiful new creation, cream-yellow standards and falls, with a solid border of orange around shirred large flower. Tan at hafts, semi flared, nicely ruffled with an eye-catching heavy tangerine-red beard. Substance good, and nicely branched. Fertile both ways. This is the last of Joe Becherer's line breeding. Only a few to be released. **Net** **\$35.00**

CO-INTRODUCING FOR 1961

CELESTIAL JOY—(M. Olson '61). Seedling 58-20A. (Snow Flurry X Great Lakes) X (Snow Flurry X Cloud Castle) X Muted Music). Butterfly Blue self (Wilson 645/1). The smoothly-textured large blooms are beautifully proportioned. Firmly closed standards and semi-flaring falls are nicely ruffled. White beard on clean, wide haft. Good branching on sturdy 36" bloomstalk. Excellent substance. Midseason. Rated No. 1 as most popular seedling at the Kansas City Test Garden last season. **Net** **\$20.00**

GAY GEISHA—(M. Olson '61). Seedling 55-1B. (Hall 52-12 X Hall 52-07) X Color Carnival). Shell Pink (Wilson 516/3) standards, Imperial Purple (Wilson 33) falls, edged Shell Pink. Nicely proportioned 6" blooms have closed standards and slightly flaring falls, further enhanced by a bright full tangerine beard on wide hafts, good substance and non-fading qualities. Sturdy 32" bloomstalk, nicely branched. Blue-green foliage on a very vigorous plant. A hybridizer's dream, or a dreamy accent in any garden. Only a few to be released in '61. Midseason. H. C. '59. **Net** **\$25.00**

LILTING MELODY—(D. Palmer '61). Seedling 1058A (Fay 4944 X Mary Randall) X (Olson 50-10A X 5454D). Midseason, 35". A delectable laced and fluted flower with plenty of starch in its make-up. The delightful coloring is a luscious true pink (Pink Dawn—Maerz and Paul) with no hint of yellow or peach. It has a beard to match. The well-proportioned blooms have wide hafted flaring falls and firmly held standards. Has a sturdy stalk with three buds in every socket. A strong grower, fertile both ways. An eye-catcher in our garden for the past two years. Truly a charmer. Limited stock. H. C. '58. **Net** **\$25.00**

SEAFAIR QUEEN—(Rex Brown '61). Seedling 56-40-2. Midseason, 32". (Queen's Lace X Sib to Crinkled Sunset). Beautiful new creation. Ivory-white standards and falls, with an edge of pale yellow around heavily laced flower. Beard pale yellow. Excellent form with closed standards and wide, flaring falls. Heavy substance and good branching. **Net**..... **\$30.00**

WHITE FROSTING—(D. Palmer '61). Seedling 1958D. (Swan Ballet X Henry Shaw). Midseason, 36". A crisp, glistening pure white flower of great substance. Has a white beard. Buds are tinted green, and retain the green on the underside of the falls after the bloom has fully opened. It reminds me of the thick frosty swirls of stiff well beaten cake frosting. The beautifully proportioned flowers have broad semi-flaring falls and well held arching standards. The whole bloom is delightfully ruffled and fluted. It has a strong, well-branched stalk and is a good "doer". H. C. '60. **Net**..... **\$25.00**

BRONZE FLARE—(Olson '60). Sdlg. 50-1D. (Mexico X Rocket). Closed standards are Buttercup Yellow (Wilson). Deep Yellow-Ochre (Wilson falls with matching beard, flare almost horizontally). Nice branching. Good substance, plus good growing habits. An eye-catcher for front-of-the-border. Late—32". H. C. '57. **Net** **\$20.00**

CHANCES ARE—(Schaan '60). Medium Late—38". (Apricot Seedling X Magic Mood). A luscious true Apricot self, appears to come from red undertones rather than orange undertones. The beard is same color as flower, which makes it appear so clean and appealing. This is a new iris color, different from anything I have seen. Excellent branching, substance, and nice semi-flaring form. A beacon in my garden. Tested on the Pacific coast, it came through beautifully on a one-year clump. Best seedling of the show St. Louis '58. H. C. '59. **Net**..... **\$25.00**

Only a few to release this year.

PINK FASHION—(Olson '60). Sdlg. 50-20A. (Floradora X Pink Formal X Hall's 47-29). Large Orient Pink (Wilson) self. Deep Pink beard enhances the beauty of the beautifully proportioned bloom. Closed standards, semi-flaring falls. Good branching on 36" stalk. Wonderful substance. Sturdy grower and good increaser. Proving a superb breeder. Midseason—36". H. C. '58. **Net \$20.00**

This is the seedling that attracted so much attention at the Convention in Syracuse in 1958.
